Question 1

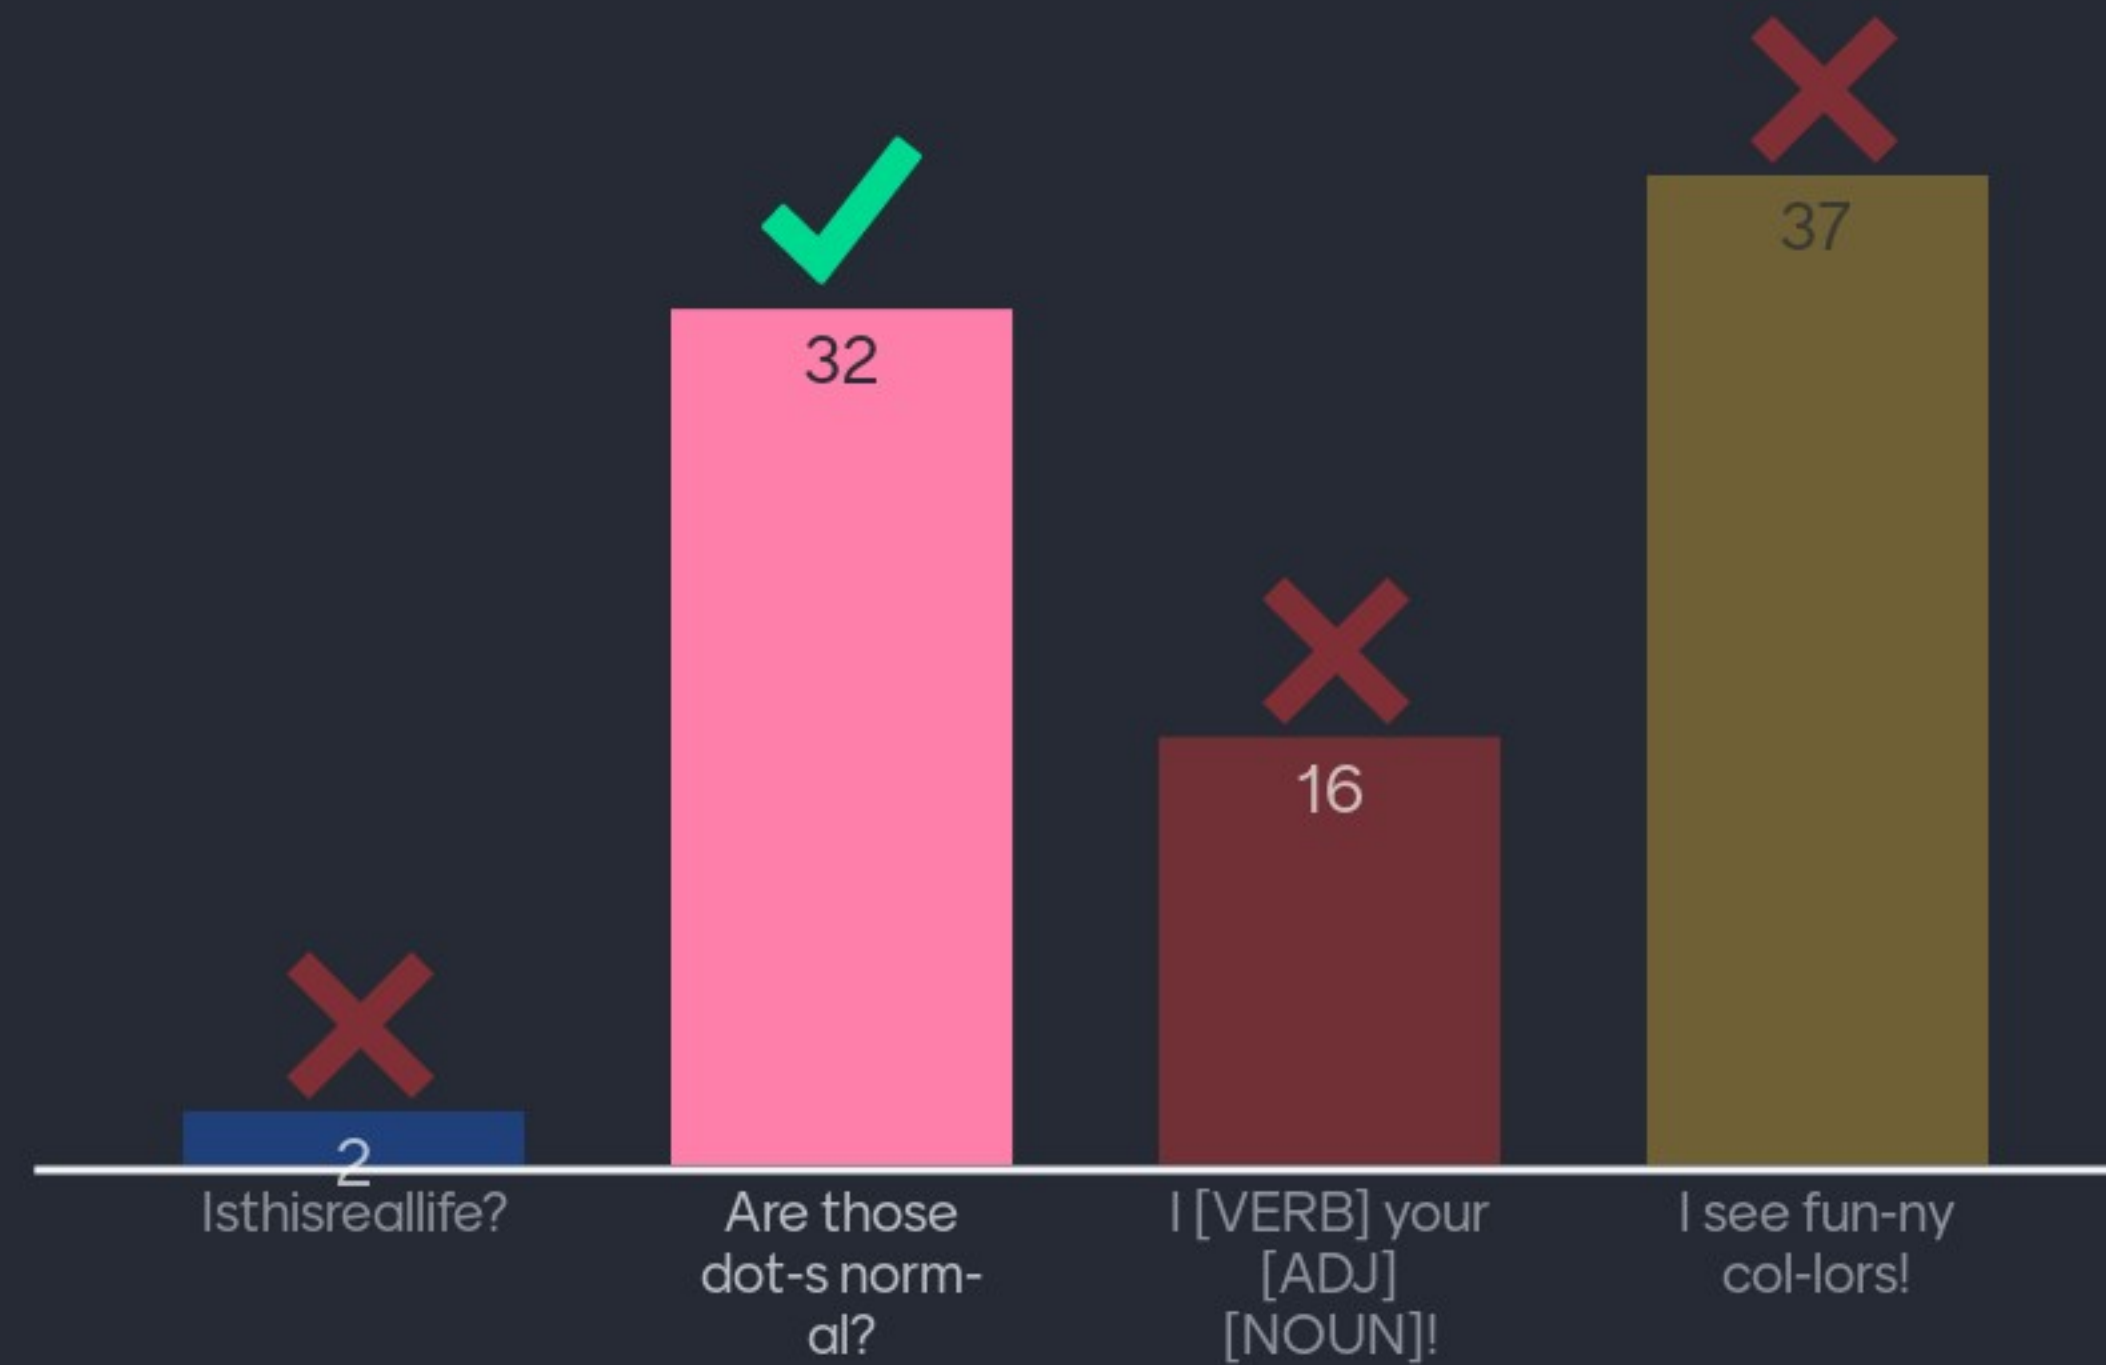

It is your first day as a nurse in the famous UKP hospital, and you are very nervous. The head physician, Dr. med. Arnold, gives you your first task: Calm down a patient by giving him a dose of Morphine. Should be easy!

Sadly, you mix up the medicine and give the patient a dose of "Morphemes" instead. The patient now talks in Morphemes! What will the patient reply to you?

(Which following option consists of morphemes?)

Which following option consists of morphemes?

Question 3 - Textual answer

The bomb ticks incessantly, there is no escape. The crazy and extremely dangerous NLP villain "Doctor Octo-POS" has provided this treacherous explosive device with a linguistic riddle - only you and your knowledge from the lecture can save the city now! The riddle reads:

"If you can find the head of the phrase you get to leave this dangerous place. But if the head of the phrase is missed then you abruptly cease to exist."

You see a piece of paper - except for the first words "This is..." all further words are marked as a nominal phrase. 60 seconds.

What is the head of the following nominal phrase?

This is [the new game from Thomas that I played with him yesterday].
